

Food web shuffle Handout 2

Who eats who? Students will put the organisms in the right position of the food web and make the right connections. How are they interconnected?

 <p>Benthos</p>	 <p>Seabirds</p>	 <p>Ice fauna</p>
 <p>Zooplankton (amphipods)</p>	 <p>Walrus</p>	 <p>Phytoplankton</p>
 <p>Bowhead whale</p>	 <p>Marine microbes</p>	 <p>Zooplankton (copepods)</p>
 <p>Arctic cod</p>	 <p>Human</p>	 <p>Narwhal</p>
 <p>Gelatinous zooplankton</p>	 <p>Ringed seal</p>	 <p>Polar bear</p>
 <p>Ice algae</p>	 <p>Detritus (dead organisms)</p>	 <p>Killer whale</p>
